* Stripped frames

Serial numbers 1022 and 1126 stamped under bottom bracket. All others are at the top of the seat tube.

Oldest frames have top of seat stays pinched and brazed on outside of seat tube

Rear fender mount on seat stays can be tube and stamped regardless of year or model

Early frames have the chain stay tubes pinched and cut for rear wheel drop-out to serial #022603

Overlap in rear wheel drop-out production method

Later frames have the chain stay tubes inserted with stamped and riveted drop-out from serial #021998

Rear drop-out riveted and welded after serial #034665

Fork steerer tube is 1 5/8" longer than head tube

	Balloon	28"
Fork crown width	4 1/2"	4"
Fork crown bottom to end of arm	14 3/4"	15 1/2"
Seat stay length from post to fender mount	4 1/8"	3 1/2"
Bottom bracket shell to fender	3 1/2"	2 3/4"
